PROFESSIONAL SUMMARY

Software developer with a passion for technology, problem-solving, and a commitment to continuous learning into an engineering role. Currently a client-focused banking professional with 4 years of experience building strong customer relationships and driving cross-functional collaboration across departments. Proven success in achieving performance goals and delivering personalized financial solutions.

TECHNICAL SKILLS

Java • HTML • CSS • JavaScript • Spring Boot • React • JDBC • Table Design • SQL • PostgreSQL • E/R diagrams • Agile • Unit Testing (JUnit) • Integration Testing • Git • IntelliJ

TECHNICAL PROJECTS

Online Banking Website

Developed a full-stack online banking platform enabling secure user authentication and account management. Key features included:

- **User Authentication**: Implemented login functionality with secure credential validation.
- **Account Dashboard**: Displayed user accounts with real-time data fetched via RESTful APIs.
- **Transactions**: Enabled intra-account transfers with validation and confirmation.
- **Account Customization**: Allowed users to nickname accounts and view detailed account info (e.g., signers, account numbers).
- **Account Closure**: Provided functionality for users to close accounts with appropriate safeguards.
- **Tech Stack**: Backend built with Java and Spring Boot; frontend developed using HTML, CSS, and JavaScript; data persisted in a relational SQL database.

Banker Maintenance CLI Application

Built a command-line banking maintenance tool in Java, applying core Object-Oriented Programming principles and file handling techniques. Key features included:

- **Client & Account Management**: Enabled creation and search functionality for clients and their accounts.
- **User Input Handling**: Designed robust input validation and interaction flow for seamless user experience.
- **Data Persistence**: Utilized file I/O operations to store and retrieve account and client data.
- **Modular Design**: Structured codebase using OOP concepts for maintainability and scalability.

PROFESSIONAL EXPERIENCE
